

CREATE **ENDLESS POSSIBILITIES**  
& MAKE SHARING IDEAS SIMPLE.

## In-person **collaboration**

Brainstorm anytime, anywhere. CommBox touchscreens replace your whiteboard, flipcharts and dated projectors. Utilise the built-in whiteboard or open the built-in browser and use your favourite brainstorming app like Microsoft whiteboard, Jamboard, Stormboard or Miro. You can also add these apps through the CommBox Store. Save the collaboration session onto the cloud and share with team mates.

## Virtual **collaboration**

You might be collaborating in a huddle room and you need to invite a remote team member to collaborate. This is easy with CommBox touchscreens and displays. Simply jump on Zoom or Teams and share the screen. Invite the team member to the brainstorming app and collaborate in real time.

# TURN ANY SPACE INTO A... **Collaboration** Space

## Transform your **meeting** & **training** rooms

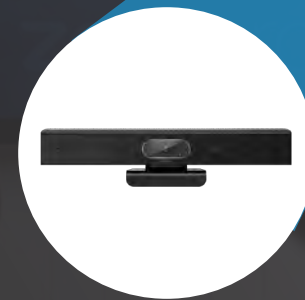

Add the OPS PC, camera, mic and speakers for the ultimate video conference set up. View text comfortably that's flicker-free with Blue Light eye-care. Put a commercial display or touchscreen onto one of our mobile stands and allow any space to turn into a collaboration space for your team.

## The perfect **VC** partner

CommBox works with all the leading video conferencing providers. Bundle a touchscreen or display with Jabra, Yealink, Poly, Creston or more. CommBox is hardware agnostic and works with your chosen VC hardware. Turn any room into a Teams or Zoom room. Kick off a Webex VC or BlueJeans from the browser. Software agnostic our displays and touchscreens will work with the VC suite of your choice.

## Seamless screensharing

CommBox touchscreens and displays enable two way mirroring that enhances collaboration in government and team meetings. Share from your laptop or mobile device, without the need for video cables interconnecting the devices.

commBOX

# TRANSFORMING THE WAY WE WORK

---

## COLLABORATE + CONNECT

Meet, present, ideate without limitations. Connect any device, turn any space into a meeting room

## INTEGRATE WITH EVERYTHING

CommBox is hardware and software agnostic

## FAST SUPPORT

Dedicated Australian Support Team and premium Onsite Support

## 5 YEAR WARRANTY

All our screen products come with at least a 5 year warranty

## STAY UP TO DATE

Keep your CommBox products up to date with our OTA framework

**CommBox believes that every meeting should bring people closer together.**

Our products deliver a premium experience each and every time. No matter whether you are using Zoom, Skype or Blue Jeans, your team will be able to hear with clarity, experience crystal clear video and share content with one click. Be ready for anything with CommBox Government Solutions.

**MOBILE COLLABORATION**

**BOARDROOM**

## Preparing for return to the Office

CommBox gives you flexible options as you consider the best ways to return to the office. In the future, all offices will require different kinds of spaces to facilitate blended working, where some members of the team will be in the office while others are working remotely.

**IDEATION SPACE**

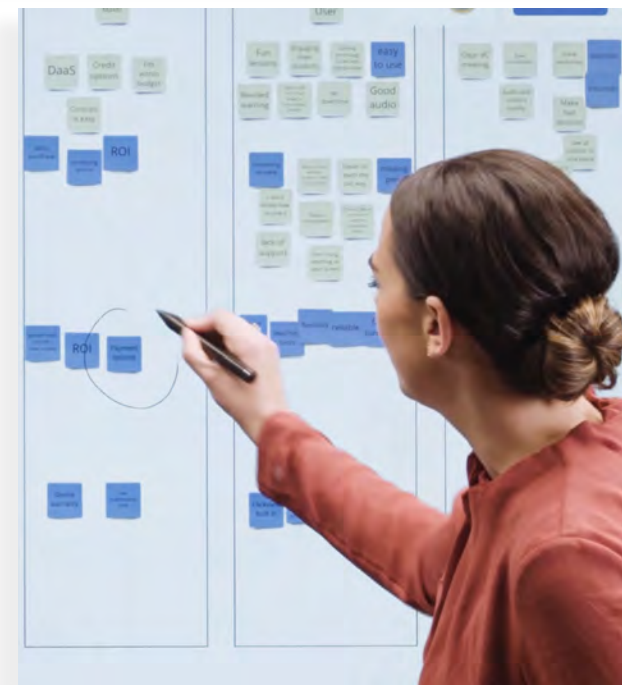

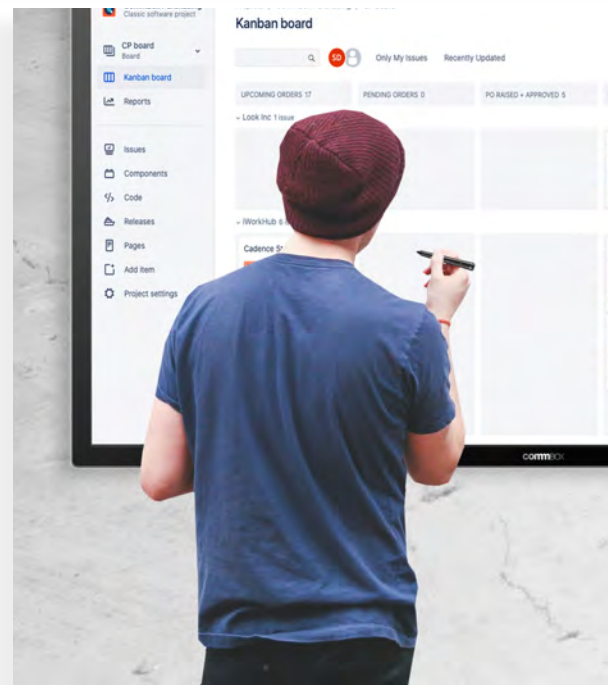

**SMALL HUDDLE**

## No matter how you work, CommBox is your collaboration partner

No matter where you work or how you work CommBox is the perfect collaboration partner. CommBox works seamlessly in:

- Agile Ideation Sessions
- Design Thinking workshops
- Sprint Planning Meetings
- Strategy workshops
- Design Sprints
- Huddles
- Virtual Offsites and more

No matter what applications you use, you can access these with CommBox.

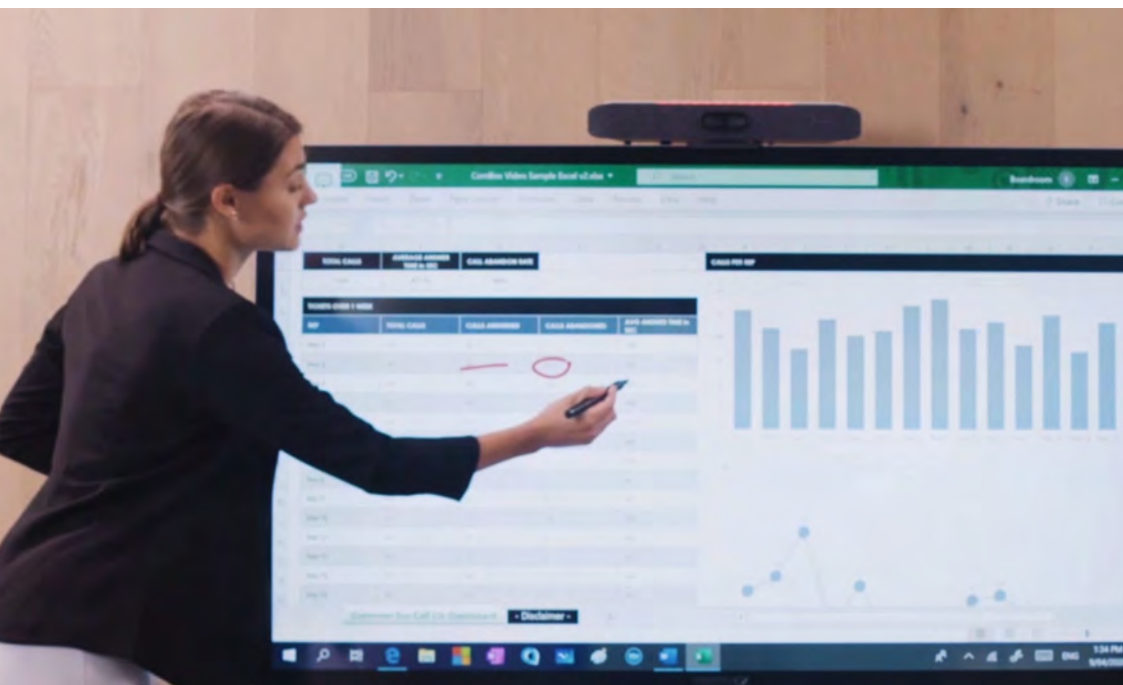

## Leverage the power of **Windows 10 Pro**

CommBox allows you to leverage the full power of Windows 10 Pro. Add a PC to the OPS slot in the screen and you can access full Microsoft functionality. Alternatively connect your Windows PC via screenshare or HDMI/USB Touch.

Use Mac or Chrome, these can be connected via a Mac Mini or Chrome Box. CommBox is truly hardware agnostic.

## Connect to the Cloud

CommBox can connect to Onedrive and GoogleDrive. Work at home, save your files to the cloud and open them on a CommBox touchscreen during a collaboration session. Any changes you make will be saved back to the Cloud.

# ULTIMATE FLEXIBILITY

## Mount Front of Room & Side of Room

CommBox touchscreens and displays can be mounted in what we call “front of house” position where your existing VC displays are. The touch capability means that your front of house screen can also double up as an in-room collaboration screen.

CommBox touchscreens and displays can be mounted in what we call “side of house” position on a side wall which can be used from in room collaboration while the VC is running. Great for strategy or board meetings.

If you have a Surface Hub already. Team it with a CommBox touchscreen or display. Have CommBox front of house for VC and use the Surface Hub side of house for in-room collaboration.

## CommBox is **so much more** than just our products...

It's the entire experience. We offer a complete service including programming and after sale support such as training. We want our customers to get the most out of our products. We do this by providing and constantly growing our library of training resources, listening to our customers feedback and continuously improving our product line through our inhouse R&D team. All training resources come built-in and easily accessible from the homescreen of all CommBox displays & touchscreens.

### **New Zealand & Australian Support**

Dove Electronics provide local, first line support for all CommBox products in New Zealand, with escalation to CommBox's Australian based support team available where needed. Both the New Zealand & Australian support teams are trained by and experts in CommBox. Our teams are incredibly responsive so you can rest at ease, knowing you have access to real support when you need it.

### **Hassle Free Management**

Your CommBox can update and upgrade apps and software automatically, or at the click of a button, you set your preference.

# THE POWER OF INTERACTIVITY

## Annotate **Everywhere**

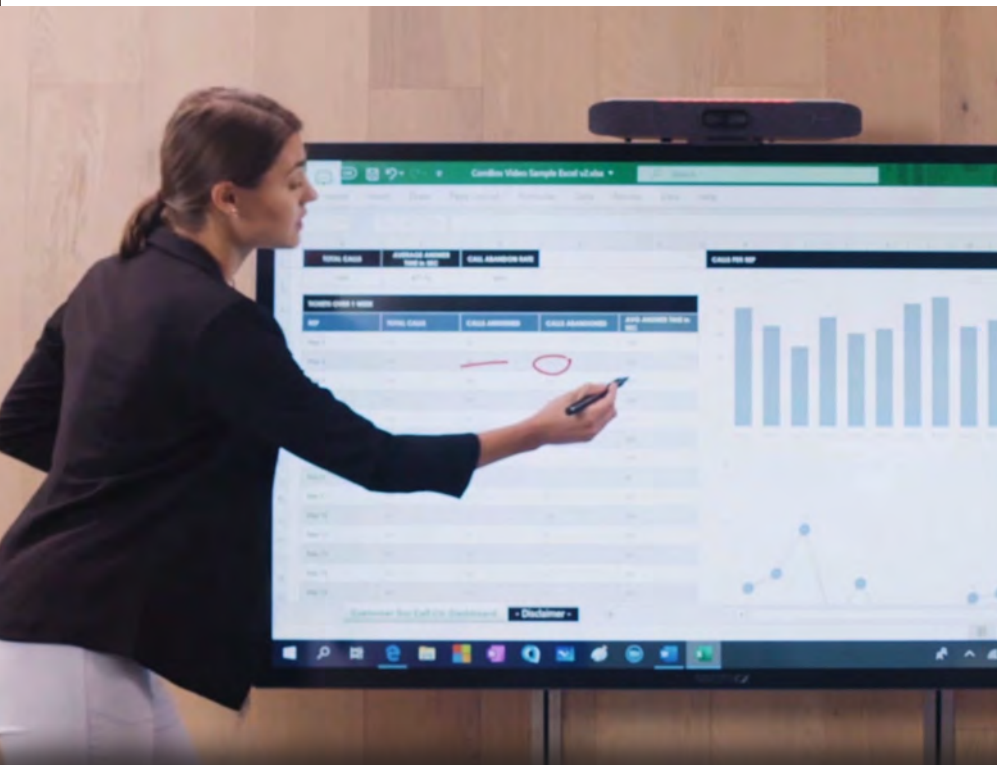

The CommBox Interactive range lets you annotate on any content. Grab a stylus pen and make notes on the whiteboard, on the web browser, on any Microsoft application if an OPS is added. Annotation improves understanding and collaboration. Highlight important points, add comments from your team mates and share later.

## Built-in **Whiteboard**

The CommBox Whiteboard works just as you expect. It allows you and your colleagues or customers to collaborate in realtime. Invite multiple people to share their ideas, powered by our 20 point touch technology. You may prefer Microsoft Whiteboard, Jamboard, whiteboard.fi or any other whiteboard, with two touches you can jump there and start using it. Share these whiteboards with your team or customers and collaborate in real time.

## Write **effortlessly, natural & fluid** with **CommBox touch technology**

CommBox's touch technology is an advanced finely tuned handwriting experience. This allows users to create more natural writing on the screen. CommBox touch technology also offers a smooth writing experience when used with HDMI, VGA, and other signal sources, ensuring maximum flexibility.

# commBOX CONNECT

Present any content, from any device simply and easily. Connect Windows, Mac and Chrome laptops and personal devices such as phones and tablets. Supports Native Airplay for Mac and iOS devices and Miracast for Windows devices and even supports touch back for Mac and Windows, simply jump up the screen and start controlling your device. Broadcast the CommBox screen back to other CommBox screens and colleagues or customers devices. Connect up to 35 people at once and display up to 4 devices at once. Supports revolving pin number for security.

## DISCOVER MORE WITH THE **commBOX** Store

The Store allows you to add Android apps onto your CommBox touchscreen or display. You can access the CommBox Store from the main Apps menu, which you will find by clicking the Apps button on the home screen of your CommBox touchscreen. From the Store you can install Miro, Monday, Stormboard, CommBox Signage and more. Keep checking the Store as new apps will be added regularly.

# MEET OUR PRODUCTS

## Cadence Stand

The Cadence stand is ideal for government settings. Both stable and robust, it features internal built in cable management that includes power and ethernet. Designer 100mm castors make it easy to manoeuvre through doorways. Built-in height control as well as preset levels provides ultimate flexibility.

## Dash Stand

Perfectly designed for both interactive and display screens up to 65". With a built in shelf above the screen that is perfect for many models of VC camera.

Dash is designed for the office environment and enables any space to be turned into a video conferencing collaboration area simply by wheeling in the dash stand and screen. Dash is great for showrooms or retail spaces. Turn your screen mounted on the Dash stand into mobile signage by adding CommBox signage. The stand can be put together in 6 minutes or less.

## Elegance Stand

The CommBox Elegance Stand is understatedly stylish, designed to complement any corporate space. Move it from front to side of room or room to room as required. This stand offers ultimate flexibility to work, present and collaborate the way you need to. Fits 55" – 86" touchscreens & displays, fixed height with pen shelf.

## Motorised Stand

Complement your CommBox Interactive or Display up to 90" with our stylish motorised stand. Featuring Mini PC mounting holes, a tidy cable management solution and laptop shelf.

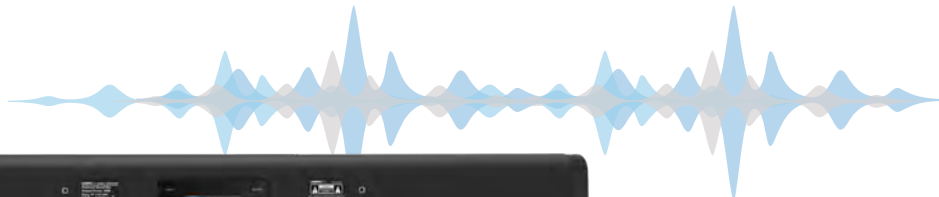

## Manual Tilt Trolley

Electrically raise and lower your screen and manually adjust the tilt angle. Can tilt into table top, perfect for architectural drafting and creatives. Suitable for screens up to 80" in both Interactive and Display.

## PREMIUM AUDIO Maxx Base Technology

The new CommBox Premium Sound Bar is an active sound bar with high fidelity audio, reinforced by Maxx Bass Technology and is the ideal audio accessory for Interactive and Display. Connect your Control system directly to the 3.5mm port on the rear of the Sound Bar to control volume, input and power.

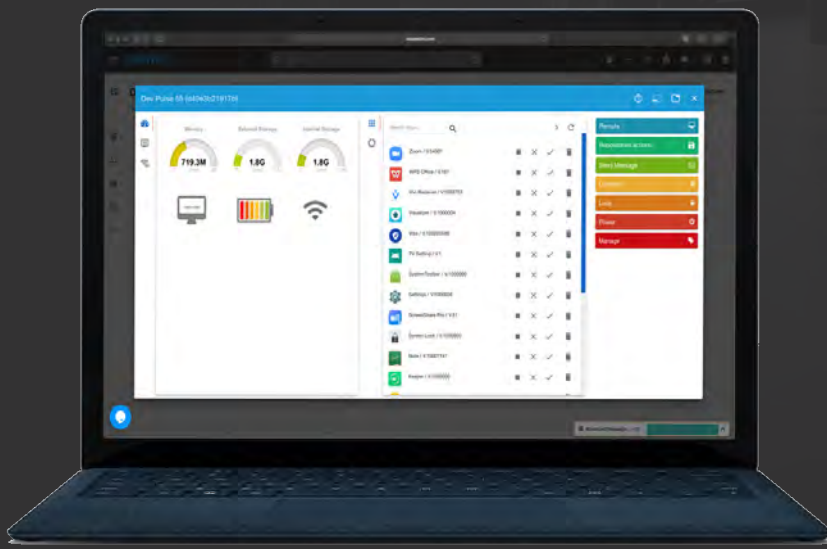

# MEET OUR PRODUCTS

LEADERS IN AUDIO VISUAL CONTROL, COMMBOX AND LEADERS IN MOBILE DEVICE  
MANAGEMENT RADIX VISO HAVE COLLABORATED TO PRODUCE CDM.....

# commBOX DEVICE MANAGEMENT

CDM is an easy to use cloud platform that allows IT and AV managers to centrally monitor, manage and support CommBox touchscreens and displays wherever they are. Not only that, CDM is compatible with other devices such as laptops, tablets, mobile devices and more.

CommBox is committed to reducing package waste and ewaste. 

Not only is CommBox packaging 80% recyclable, but through the CommBox Buy Back program, Commbox is providing a simple means for organisations to responsibly recycle their old displays, projectors and interactive screens. When purchasing a new Commbox product, we will recycle the equipment it is replacing free of charge. Simply deliver to any of our depots, available in most major centres in New Zealand. Commbox has partnered with Dove Electronics and Recycle Group NZ to offer this service to New Zealand organisations.

## We Work With Designers & Architects

Are you reimagining your office spaces or planning new collaboration spaces?

We love to work closely with interior designers and architects to create the perfect workspaces. The CommBox team is highly trained to provide advice on audio visual components and set up, acoustics, room control and more.

## Together we do great things

CommBox partners with industry leaders to ensure every business has a premium video conference experience. Our interactive display panels and our commercial display panels have been tested and work seamlessly with the top VC providers and hardware vendors.
